WHO WE ARE

At Priyam Consultancy Services, we build websites that drive business growth.

We deliver high-performance websites and digital solutions for businesses across India, South East Asia, and the Middle East. From corporate websites and e-commerce platforms to custom web applications, we create solutions tailored to your business goals. More than a development company, we're your long-term digital partner—helping you attract customers, strengthen your brand, and grow online.

WHY CHOOSE PCS?

One Point Access

Website design, development, and digital support — all under one roof with no fragmented vendors or communication gaps.

Customized Strategies

No templates, no shortcuts. Every website is built specifically around your business requirements, audience, and growth goals.

Expert Team

Skilled professionals with deep expertise across UI/UX design, frontend and backend development, and e-commerce platforms.

Result Oriented

Every website we deliver is measured against real outcomes — traffic, engagement, leads, conversions, and growth.

Customer Success First

We do not consider a project successful unless your business grows because of it. Your success drives us.

Scalable Solutions

Websites built to grow with your business, handling new features, increased traffic, and expansion across the World.

SERVICE WE PROVIDE

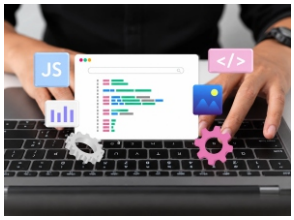
A powerful website is the foundation of every successful digital presence. At PCS, we design and develop websites that do not just look great — they attract the right visitors, build instant trust, and convert them into paying customers.

Website Design

We design websites with purpose, using thoughtful layouts, colors, typography, and visuals that reflect your brand, engage your audience, and inspire meaningful customer action.

Static Website Development

Fast, professional static websites delivering speed, reliability, and a strong online presence for businesses without complex backend requirements.



Custom Website Development

Custom web solutions built from the ground up to match your unique workflows, business goals, and audience—delivering flexibility, scalability, and zero compromises.

WooCommerce Website Development

Feature-rich online stores built on WooCommerce, giving you complete control over products, pricing, inventory, payments, and the customer buying journey.

Shopify Website Development

High-converting Shopify stores designed for growth and easy management. We handle store setup, branded design, product integration, payment configuration, and launch.

E-Commerce Website Development

End-to-end e-commerce solutions for businesses selling online. From store architecture and product design to payment integration and post-purchase experience—built to scale.

TECHNOLOGY STACK

We choose technologies based on what delivers the best outcome for your business — modern, reliable, and built to last well into the future.

Frontend Development

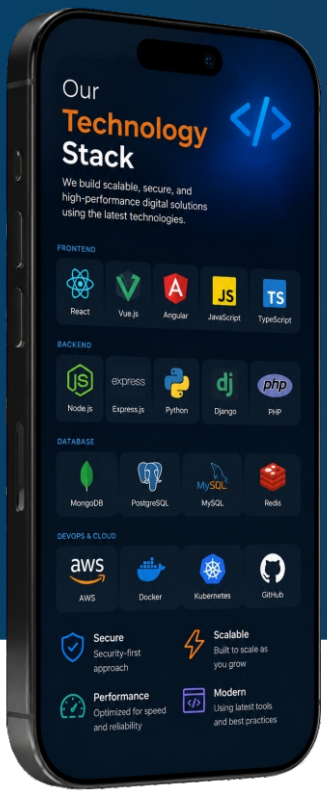
HTML5 | CSS3 | JavaScript | TypeScript | React.js

Backend & Database

Node.js | PHP | MySQL | MangoDB –

CMS & E-Commerce Platforms

WordPress | WooCommerce | Shopify



CORE FEATURES OF EVERY WEBSITE

Responsive Design

Seamless, optimized experience across all devices and screen sizes — desktop, tablet, and mobile.

SEO Optimized

Built with search engine best practices from the ground up so your website gets found by the right people.

Fast Loading Speed

Performance-optimized for better user experience, lower bounce rates, and improved search rankings.

Secure & Reliable

Robust security protocols to protect your business data and your customers at all times.

User Friendly Interface

Intuitive navigation that keeps visitors engaged longer and guides them toward conversion naturally.

CMS Integration

Easy content management access so you stay in full control of your website without needing technical help.

OUR PROCESS

A Structured Approach That Delivers Every Time

Step 01 — Discovery

Understand your business, audience, goals, and project requirements before planning begins.

Step 02 — Planning

Create a clear roadmap covering structure, features, timelines, and project milestones.

Step 03 — Design

Craft intuitive, brand-focused designs for review, feedback, and final approval.

Step 04 — Development

Build fast, secure, scalable websites using clean, efficient, and maintainable code.

Step 05 — Testing

Thoroughly test functionality, performance, compatibility, and usability across all devices.

Step 06 - Launch & Support

Launch smoothly with support, maintenance, monitoring, and continuous performance improvements.
